Features & Advantages of the VRA PRO 2

- **Encrypted Bluetooth Wireless Remote** - No frequency overlap like low frequency RF or need for install of additional sensors like IR systems
- **No Need for Additional Sensors** -Easier Install
- **No Frequency Overlap**-Great for Adjacent Systems/Rooms
- **Spacing Saving Design**-Sits nearly 3" deeper than similarly sized 3D toy systems
- **Expandable system*** (Same model only)-Can operate up to 5 units with the same remote

- **Ultra Bright LEDs**-Helps keep the child's attention during testing
- **Easy Pairing with Remote**-Plug it in and push the remote buttons within two minutes
- **Centering Box/Mid-Line Distractor Toy Included**-Easier testing with one audiologist
- **Easy Installation**-Designed with the installer in mind
- **No Interconnecting Cables** (between left and right side reinforcers)-Easier Install
- **No Need for Additional Install Kits or Brackets**-Standard Pricing
